About the Proceedings

The *Proceedings* of the American Concrete Institute appear first in the JOURNAL of the American Concrete Institute. In 1981, the ACI JOURNAL was published bimonthly, with the annual index published in the March-April 1982 issue. The *Proceedings* include technical papers, ACI committee reports, and abstracts to ACI separate publications. All technical material originating in the ACI *Proceedings* pages is indexed annually. By assembling the *Proceedings* pages, which are numbered consecutively January through December, with the title, contents, and index pages from the index issue, a complete volume is formed.

INDEX

Proceedings American Concrete Institute
VOLUME 78 1981

Individually authored papers, committee reports, and abstracts of separate ACI publications are indexed in three categories:

1. Title .....**Fatigue of plain concrete** (78-27) Thomas T. C. Hsu July-Aug. 1981 292
2. Author .....**Hsu, Thomas T. C.** — Fatigue of plain concrete (78-27) July-Aug. 1981 292
3. Subject .....**Fatigue tests** — Strength of plain concrete (78-27) July-Aug. 1981 292

Numbers in the parentheses with each entry constitute the title number of the paper or report. The first number is the number of the *Proceedings* volume in which the paper appeared; the second number is the number of the paper in the volume. For abstracts, which are not assigned a paper number, the identifying abbreviation AB is given; i.e., (78-AB). The month and year indicate the JOURNAL issue in which the material appeared. Page numbers indicate the first page of the item and are the same for JOURNAL and *Proceedings*.

Discussion is identified as "Disc." and is indexed under the paper title and the name of each contributor to the discussion. Only discussion which appears in *Proceedings* V. 78 is covered in this index. For JOURNAL papers, this represents papers published between July 1980 and June 1981. To find discussion of a Volume 78 paper which appeared after June 1981, check the notice given in the JOURNAL issue in which the paper appeared. This notice will indicate where any discussion that developed is published. A similar notice is given with the abstracts of symposia publications. Discussion of symposia papers usually appears one year following publication of the abstract.
